

Clark County School District Student Device Use

August 6, 2021

Student Device Use

Students will carry their devices to and from school each day. If a student is enrolled at Nevada Learning Academy, the device will be allocated through Nevada Learning Academy.

The User Support Services Department in conjunction with CCSD School Police has developed a [Safety and Your Mobile Device](#) handout that schools can share with families, which covers basic device safety and care information for walking to and from school.

Per the Mobile Device Agreement, students should carry the device in a padded case or a backpack to minimize the chance of damage and keep it out of view when in public. Additionally, the [Mobile Device Guidelines and Expectations](#) document outlines care and maintenance.

Chromebooks that have been purchased by the District are ruggedized and do not require a cover; however, schools can provide a cover if desired. iPads distributed to Pre-Kindergarten and students served in self-contained classrooms should include a protective cover.
